| HyperDocs are... | HyperDocs are NOT... |
|---|---------------------------------|
| Carefully crafted digital lesson plans that require educators to have a mindset of thoughtful pedagogy. | "JUST" a Google Doc with links. |
| Visually engaging and packaged learning experiences. | A pre-made curriculum program. |
| "HOW" students use the technology to create, collaborate, think critically, and connect. | A new app or web tool. |

The background is a solid blue color with a pattern of small, white, line-art icons scattered across it. These icons include various office and school-related items such as papers, folders, pens, pencils, erasers, rulers, protractors, scissors, staplers, and mobile phones. The icons are distributed evenly across the entire background, creating a textured effect.
